STATEMENT UNDER SECTION 134 (3) OF THE COMPANIES ACT, 2017.

This statement sets out the material facts pertaining to the special business of the Notice to be transacted at the Annual General Meeting of the Company. Directors of the Company have no interest in special business except in their capacity as director / shareholder.

Special Business No.1

The transactions carried out with associated companies/related parties have been approved by the Board as recommended by the Audit Committee on quarterly basis pursuant to provisions of applicable laws. However, the majority of Directors of the Company were related due to their common directorship and holding of shares in the associated companies, the Board has recommended the same for placement before the shareholders of the Company in general meeting for ratification/approval.

All these related party transactions during the mentioned period were executed at Arm's Length Price in a fair and transparent manner and there was no departure from the guidelines mentioned in Code of Corporate Governance for such transactions and Companies Act, 2017. Pursuant to the above, these transactions have to be approved/ratified by the shareholders in the General Meeting. The directors and their relatives have no direct or indirect interest in the aforesaid business except to the extent of their shareholding/common directorship with the related parties.

**Special Business No.2**

The Company shall be conducting transactions with the related parties during the year ending June 30, 2023 on an arm's length basis as per approved policy with respect to 'transactions with related parties' in the normal course of business. Being the Director of the Company, many Directors may be deemed to be treated as interested in transactions with related parties due to their common directorship and / or shareholding. In order to promote good corporate governance and transparent business practices, the shareholders desire to authorize the Board of Directors to approve transactions with related parties from time-to-time on case to case basis, including transactions (if executed) triggering approval of shareholders u/s 207 and / or 208 of the Companies Act, 2017, for the year ending June 30, 2023, which transactions shall be deemed to be approved by the shareholders. The nature and scope of such related party transactions is explained above. The transactions shall be placed before the shareholders in next Annual General Meeting for their formal ratification / approval. The directors are interested in the resolution only to the extent of their shareholding and / or common directorship in such related parties.

CHAIRMAN'S REVIEW

I am pleased to present the review on the overall performance of the board and effectiveness of the role played by the board in achieving the company's objectives.

The Company follows the best practices relating to corporate governance and complies with the relevant requirements of Companies Act, 2017 and the Listed Companies (Code of Corporate Governance) Regulations, 2019 with respect to composition, meetings and procedures of the Board of Directors (the "Board") and its Committees. The Board has nine members with diverse background having core competencies, knowledge, skills and experience relevant to the business of the Company.

The Directors of your company are well aware with their responsibilities, under the applicable regulations, for governance of the company in an effective and efficient manner. Evaluation of the board of Directors is aimed to measure the Board overall performance and conduct of the company's affairs in accordance with the best practices of corporate governance. For the year under review, based on the evaluation, the overall performance and effectiveness of the Board has been assessed as satisfactory. During the financial year 2021-22 Six Board meetings were convened. The Board has duly formulated a vision and mission statement, is actively involved in formulation of appropriate policies and procedures and ensures due compliance with all the regulatory requirements. It closely monitors the performance of its committees and is committed to uphold and stable operation.

During the year, the board considered and approved, among other things, quarterly and annual financial statements, appointments of external auditors, distribution of dividend and financial matters.

I am thankful to the members of the Board of Directors of the Company, shareholders, bankers, financial institutions, our valued customers and suppliers for their support and assistance. I also thank the executives and other employees of the Company for their dedication and hard work and look forward to getting the same cooperation in future.

Directors' Report

To the shareholders

The directors of the Company are pleased to present the Annual Report along with the audited financial statements for the year ended 30 June 2022

COMPANY'S AFFAIRS

Fazal Cloth Mills Limited (The Company) was incorporated in Pakistan in 1966 as a public limited company under the Companies Act, 1913 (now the Companies Act, 2017). The shares of the company are quoted on Pakistan Stock Exchange. The registered office of the company is situated at 69/7, Abid Majeed Road, Survey No 248/7, Lahore Cantt, Lahore. The Company is principally engaged in manufacture and sale of textile goods.

During the year, Board of Directors of the Company in the meeting held on 30 September 2021, approved the acquisition of Imperial Textile Mills Limited (ITML), a dormant entity. Share purchase agreement between the Company and the shareholders of ITML was signed on 30 September 2021. However, the Company acquired 100% shareholding of ITML on 17 May 2022 after completion of regulatory approvals. ITML's manufacturing facility located near to Company's manufacturing facility in Muzaffargarh will be used for expansion of Company's production capacity.

The Company has filed a scheme of arrangement with the Securities and Exchange Commission of Pakistan (SECP) to amalgamate ITML with the Company with effect from 01 June 2022. The approval for scheme of amalgamation was granted on 28 October 2022. Pursuant to this order, the acquired company Imperial Textile Mills Limited was merged within the Company through asset acquisition accounting. After the merger any consolidated financial statements will not be required and status of these financial statements will remain individual financial statement of the Company.

Review of Financial Performance

During the period under review, the financial performance of the Company was satisfactory. Sales of the Company increased to Rs. 65,406.26 million as compared to Rs. 52,132.24 million last year. Gross profit increased to Rs. 11,167.95 million compared to Rs. 8,004.99 million last year. However, Profit after tax of the Company reduced to Rs. 4,610.26 million compared to Rs. 5,431.76 million during the last year. The reason for decrease in PAT was 1) Higher financial cost due to increase in interest rates 2) Super Tax 3) Provision related to investment of the Company in Fatima Energy Limited.

Following is a summary of the key financial numbers:

Financial Highlights	2022	2021	Increase / (decrease)
	Rupees in ('000')	Rupees in ('000')	% Age
Sales – net	65,406,262	52,132,243	25.46%
Cost of sales	54,238,314	44,127,253	22.91%
Gross profit	11,167,948	8,004,990	39.51%
EBITDA	10,485,539	8,793,472	19.24%
Depreciation	1,664,133	1,436,003	15.89%
Finance cost	2,922,661	1,794,692	62.85%
Other income	561,257	644,455	-12.91%
Profit before tax	5,898,745	5,562,778	6.04%
Profit after tax	4,610,255	5,431,757	-15.12%
Earnings per share – Rs.	153.68	181.06	-15.12%

Sales of the Company increased by Rs. 13,274.02 million in the current year as compared to the last year. Cost of sales increased by Rs. 10,111.06 million in the current year as compared to the last year; mainly due to increase in raw material prices.

Gross profit ratio of the Company is 17.07% in the current year as compared to 15.36% in the last year.

The Company received dividend income of Rs. 241.90 million during the year as compared Rs. 172.78 million during the last year. EBITDA of Rs. 10,485.54 million was generated as compared to Rs. 8,793.47 million last year. EBITDA per share was Rs. 349.52 million (2021: Rs. 293.12 million).

Finance cost of the Company increased from Rs. 1,794.69 million to Rs. 2,922.67 million, an increase of 62.85% as compared to previous year due to increase in KIBOR and increase in working capital.

Capital Expenditure

The Company incurred capital expenditure of Rs. 4,987.01 million during the year for modernization and expansion of its plant.

Earnings per Share (EPS)

Earnings per share (EPS) were reported at Rs. 153.68 and earnings per share of Rs. 181.06 in the previous year.

FUTURE OUTLOOK

The Russia Ukraine War has resulted in sharply higher fuel and energy prices. Consumers have decreased expenditure on discretionary items as a result. Demand for Textile Products has been badly hit across the world. Covid lock downs in China and tight monetary policy in the US and EU have amplified the slowdown in demand. As a result, prices for all textile products including cotton, polyester, yarn and fabric have fallen sharply.

Cost of production continues to rise due to higher interest rate, higher salary and wages and increase in energy and fuel prices. As a result margins have been squeezed. Your management is making all efforts to manage the situation and reduce negative impact of this situation on operations and financial performance of your Company.

HEALTH, SAFETY & ENVIRONMENT (HSE)

The Company is committed to provide a safe, injury-free workplace where everyone is healthy, energized and protects the society. HSE remains a priority for the Company at all levels and this year we focused on bringing an attitudinal change in the HSE culture by creating awareness and providing strong feedback on safety performance.

RISK MANAGEMENT

The Company is exposed to operational, financial and compliance risk which are mitigated through effective risk management framework, coupled with our internal controls, helps us maintain our focus on managing the potential risks affecting our business. Internal Audit department provides independent report to the board of directors on effectiveness of risk management and control processes.

Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior. Operational risks arise from all of the Company's operations. The company developed standards for the management of operational risk in the various areas like requirements for the reconciliation and monitoring of transactions, compliance with regulatory and other legal requirements, documentation of controls and procedures etc.

Currency Risk

Pakistani Rupee is the functional currency of the Company and exposure arises from transactions and balances in currencies other than Pakistani Rupee as foreign exchange rate fluctuations may create unwanted and unpredictable earnings and cash flow volatility. The maximum amount exposed to currency risk is only 9.06% (2021: 11.92%) of the Company's total assets, any adverse/ favorable movement in functional currency with respect to US dollar will not have any material impact on the operational results.

Credit Risk

Credit risk represents the accounting loss that would be recognized at the reporting date if counter parties failed completely to perform as contracted. To reduce exposure to credit risk the Company has developed a formal approval process whereby credit limits are applied to its customers.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure as far as possible to always have sufficient liquidity to meet its liabilities when due.

ADEQUACY OF INTERNAL FINANCIAL CONTROLS

The Company has established an effective and efficient system of internal and financial controls to safeguard the assets of the Company, prevent and detect fraud and ensure compliance with all statutory and legal requirements. The internal control structure is regularly reviewed and monitored by the Internal Audit function duly established by the Board. Audit Committee reviews the internal control system on quarterly basis in accordance with the term of its reference.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

The Company considers CSR as a fundamental responsibility and strives to be a good corporate citizen. The Company contributes to society by supporting public health and education facilities.

Further as CSR measures, during the year the company emphasized more on Occupational Safety and Health of the workers and staff as the most important thing for the Company. The Company formulated a crisis management team which implemented measures to protect against outbreak of Covid-19. The team launched a campaign at all locations of the Company and its surrounding for the awareness of appropriate precautions which an individual should take to save himself/ herself and colleagues. The Company also regularly organizes medical camps and regular fumigation is carried out at premises of all manufacturing facilities by using fogging machines to prevent viral diseases.

SUBSEQUENT EVENTS

No material changes and commitments affecting the financial position of the Company occurred between 30 June 2022 and 28 October 2022.

CORPORATE AND FINANCIAL REPORTING FRAMEWORK

The Directors confirm compliance with Corporate and Financial Reporting Framework of the Securities and Exchange Commission of Pakistan and Listed Companies (Code of Corporate Governance) Regulations, 2019 (the CCG Regulations) for the following matters:

1. The financial statements, prepared by the management of Fazal Cloth Mills Ltd., present fairly its state of affairs, the results of its operations, cash flows and changes in equity.
2. Appropriate accounting policies have been consistently applied in preparation of these financial statements and accounting estimates are based on reasonable and prudent judgments.
3. The Company has maintained proper books of account.
4. International accounting standards, as applied in Pakistan, have been followed in preparation of these financial statements and departures there from have been adequately disclosed.
5. The system of internal control is sound in design and has been effectively implemented and monitored. The process of monitoring internal controls will continue as on-going process with objective to strengthen the controls and bring improvements in the system.
6. There are no doubts about the Company's ability to continue as a going concern.
7. There has been no material departure from the best practices of the CCG Regulations.

ڈائریکٹرز رپورٹ

کمپنی کے ڈائریکٹرز 30 جون 2022 کو ختم ہونے والے سال کے لیے آڈٹ شدہ مالیاتی گوشواروں کے ساتھ سالانہ رپورٹ پیش کرنے پر خوش ہیں۔

کمپنی کے معاملات

فضل کلاتھ ملز لمیٹڈ (دی کمپنی) کو پاکستان میں 1966 میں کمپنیز ایکٹ، 1913 (اب کمپنیز ایکٹ، 2017) کے تحت ایک پبلک لمیٹڈ کمپنی کے طور پر شامل کیا گیا تھا۔ کمپنی کے حصص پاکستان اسٹاک ایکسچینج میں درج ہیں۔ کمپنی کا رجسٹرڈ آفس 69/7، عابد مجید روڈ، سروے نمبر 248/7، لاہور کینٹ، لاہور میں واقع ہے۔ کمپنی بنیادی طور پر ٹیکسٹائل کے سامان کی تیاری اور فروخت میں مصروف ہے۔

سال کے دوران، کمپنی کے بورڈ آف ڈائریکٹرز نے 30 ستمبر 2021 کو ہونے والی میٹنگ میں امپیریل ٹیکسٹائل ملز لمیٹڈ (ITML) کے حصول کی منظوری دی، جو ایک غیر فعال ادارہ ہے۔ کمپنی اور کمپنی کے درمیان حصص کی خریداری کا معاہدہ (ITML) کے شیئر ہولڈرز نے 30 ستمبر 2021 کو دستخط کیے تھے۔ تاہم، کمپنی نے ریگولیٹری منظوریوں کی تکمیل کے بعد 17 مئی 2022 کو ITML کی 100% شیئر ہولڈنگ حاصل کی۔ مظفر گڑھ میں کمپنی کی مینوفیکچرنگ سہولت کے قریب واقع ITML کی مینوفیکچرنگ سہولت کمپنی کی پیداواری صلاحیت کو بڑھانے کے لیے استعمال کی جائے گی۔

کمپنی نے 01 جون 2022 سے آئی ٹی ایم ایل کو کمپنی کے ساتھ ضم کرنے کے لیے سیکیورٹیز اینڈ ایکسچینج کمیشن آف پاکستان (SECP) کے پاس انتظامات کی اسکیم دائر کی ہے۔ انضمام کی اسکیم کی منظوری 28 اکتوبر 2022 کو دی گئی۔ اس حکم کے مطابق، حاصل شدہ کمپنی امپیریل ٹیکسٹائل ملز لمیٹڈ کو اثاثوں کے حصول کے اکاؤنٹنگ کے ذریعے کمپنی کے اندر ضم کر دیا گیا تھا۔ انضمام کے بعد کسی بھی مالیاتی بیانات کی ضرورت نہیں ہوگی اور ان مالیاتی بیانات کی حیثیت کمپنی کے انفرادی مالی بیانات پر ہی رہے گی

مالیاتی کارکردگی کا جائزہ

زیر جائزہ مدت کے دوران، کمپنی کی مالی کارکردگی تسلی بخش رہی۔ کمپنی کی مجموعی فروخت بڑھ کر 65,406.26 ملین روپے ہو گئی۔ جو کہ پچھلے سال 52,132.24 ملین روپے تھی۔ مجموعی منافع بڑھ کر 11,167.95 ہو گیا جو پچھلے سال 8,004.99 ملین روپے تھا۔ تاہم، کمپنی کا بعد از ٹیکس منافع گزشتہ سال کے 5,431.76 ملین روپے کے مقابلے میں 4,610.26 ملین روپے ہو گیا۔ بعد از ٹیکس منافع میں کمی کی وجہ (1) شرح سود میں اضافے کی وجہ سے زیادہ مالی لاگت (2) سپر ٹیکس (3) فاطمہ انرجی لمیٹڈ میں کمپنی کی سرمایہ کاری سے متعلقہ نقصان تھیں۔

ذیل میں مالیاتی احوالک سے متعلق اعداد و شمار دکھائے گئے ہیں۔

مالیاتی سرخیاں مستحکم مالیاتی اعداد و شمار	2021 روپیہ بطور (000)	2022 روپیہ بطور (000)	اضافہ/کمی فیصد

کمپنی کی مجموعی فروخت میں گزشتہ سال کے مقابلے میں رواں سال 13,274.02 ملین روپے کا اضافہ ہوا۔ گزشتہ سال کے مقابلے میں موجودہ سال میں فروخت کی لاگت میں 10,111.06 ملین روپے کا اضافہ ہوا ہے۔ جسکی بنیادی وجہ خام مال کی قیمتوں میں اضافہ تھا۔ کمپنی کے مجموعی منافع کا تناسب موجودہ سال میں 17.07% رہا جو پچھلے سال کے 15.36% تھا۔ کمپنی نے گزشتہ سال کے دوران 172.78 ملین روپے کے مقابلے میں سال کے دوران 241.90 ملین روپے کا ڈیوڈنڈ حاصل کیا۔ گزشتہ سال 8,793.47 ملین روپے کے مقابلے میں اس سال 10,485.54 ملین روپے کا EBITDA ہوا۔ EBITDA فی حصص 349.52 ملین روپے (2021: 293.12 ملین روپے) تھا۔ کمپنی کی مالیاتی لاگت 1,794.69 ملین روپے سے بڑھ کر 2,922.67 ملین روپے ہوگئی، KIBOR میں اضافے اور ورکنگ کیپٹل کی ضرورت میں اضافے کی وجہ سے پچھلے سال کے مقابلے میں 62.85 فیصد اضافہ ہوا۔

کیپٹل ایکسپینڈیچر

کمپنی نے اپنے پلانٹ کی جدید کاری اور توسیع کے لیے سال کے دوران 4,987.01 ملین روپے کا سرمایہ خرچ کیا۔

فی شیئر آمدنی (EPS)

فی حصص آمدنی (EPS) 153.68 روپے پر رپورٹ کی گئی تھی جیسا کہ پچھلے سال میں 181.06 روپے فی شیئر آمدنی تھی۔

مستقبل کا نقطہ نظر

روس پوکریں جنگ کے نتیجے میں ایندھن اور توانائی کی قیمتوں میں تیزی سے اضافہ ہوا ہے۔ اس کے نتیجے میں صارفین نے صوابدیدی اشیاء پر اخراجات میں کمی کی ہے۔ دنیا بھر میں ٹیکسٹائل مصنوعات کی مانگ بری طرح متاثر ہوئی ہے۔ چین میں کوویڈ لاک ڈاؤن، امریکہ اور یورپی یونین میں سخت مالیاتی پالیسی نے مانگ میں کمی کو بڑھا دیا ہے۔ اس کے نتیجے میں، کپاس، پولی ایسٹر، یارن اور فیرک سمیت تمام ٹیکسٹائل مصنوعات کی قیمتوں میں تیزی سے کمی ہوئی ہے۔

زیادہ شرح سود، زیادہ تنخواہ اور اجرت اور توانائی اور ایندھن کی قیمتوں میں اضافے کی وجہ سے پیداواری لاگت مسلسل بڑھ رہی ہے۔ نتیجے کے طور پر مارجن میں کمی واقع ہوئی ہے۔ آپ کی انتظامیہ صورتحال کو سنبھالنے اور آپ کی کمپنی کے آپریشنز اور مالیاتی کارکردگی پر اس صورت حال کے منفی اثرات کو کم کرنے کے لیے تمام کوششیں کر رہی ہے۔

حفاظت، صحت اور ماحولیات (ح-ص-م)

کمپنی ایک محفوظ، چوٹ سے پاک کام کی جگہ فراہم کرنے کے لیے پرعزم ہے جہاں ہر شخص صحت مند، توانا اور معاشرے کی حفاظت کرتا ہے۔
(ح-ص-م) ہر سطح پر کمپنی کے لیے ایک ترجیح بنی ہوئی ہے اور اس سال ہم نے بیداری پیدا کر کے اور حفاظتی کارکردگی پر مضبوط تاثرات فراہم کر کے
(ح-ص-م) کلچر میں رویہ کی تبدیلی لانے پر توجہ مرکوز کی۔

رسک مینجمنٹ

کمپنی آپریشنل، مالیاتی اور تعمیل کے خطرے سے دوچار ہے جسے مؤثر رسک مینجمنٹ فریم ورک کے ذریعے کم کیا جاتا ہے، ہمارے اندرونی کنٹرول کے ساتھ، ہمارے کاروبار کو متاثر کرنے والے ممکنہ خطرات کے انتظام پر اپنی توجہ برقرار رکھنے میں ہماری مدد کرتا ہے۔ اندرونی آڈٹ ڈیپارٹمنٹ بورڈ آف ڈائریکٹرز کو رسک مینجمنٹ اور کنٹرول کے عمل کی تاثیر پر آزاد رپورٹ فراہم کرتا ہے۔

آپریشنل خطرہ

آپریشنل رسک کمپنی کے عمل، عملے، ٹیکنالوجی اور انفراسٹرکچر سے منسلک مختلف وجوہات سے پیدا ہونے والے براہ راست یا بالواسطہ نقصان کا خطرہ ہے، اور کریڈٹ، مارکیٹ اور لیکویڈیٹی کے خطرات کے علاوہ بیرونی عوامل جیسے کہ قانونی اور ریگولیٹری تقاضوں سے پیدا ہونے والے خطرات۔ اور کارپوریٹ رویے کے عام طور پر قبول شدہ معیارات۔ آپریشنل خطرات کمپنی کے تمام کاموں سے پیدا ہوتے ہیں۔ کمپنی نے مختلف شعبوں میں آپریشنل رسک کے انتظام کے لیے معیارات تیار کیے ہیں جیسے لین دین کی مصالحت اور نگرانی کے لیے تقاضے، ریگولیٹری اور دیگر قانونی تقاضوں کی تعمیل، کنٹرولز اور طریقہ کار کی دستاویزات وغیرہ۔

کرنسی کا خطرہ

پاکستانی روپیہ کمپنی کی فنکشنل کرنسی ہے اور پاکستانی روپے کے علاوہ دیگر کرنسیوں میں لین دین اور بیلنس سے ایکسپوزر پیدا ہوتا ہے کیونکہ زر مبادلہ کی شرح میں اتار چڑھاؤ نا پسندیدہ اور غیر متوقع آمدنی اور نقد بہاؤ میں اتار چڑھاؤ پیدا کر سکتا ہے۔ کرنسی کے خطرے سے دوچار ہونے والی زیادہ سے زیادہ رقم کمپنی کے کل اثاثوں کا صرف 9.06% (2021: 11.92%) ہے، امریکی ڈالر کے حوالے سے فنکشنل کرنسی میں کسی بھی منفی/سازگار حرکت کا آپریشنل نتائج پر کوئی مادی اثر نہیں پڑے گا۔

قرض کا خطرہ

کریڈٹ رسک کا وٹنگ نقصان کی نمائندگی کرتا ہے جسے رپورٹنگ کی تاریخ میں شامل کیا جائے گا اگر ہم منصب معاہدے کے مطابق کارکردگی کا مظاہرہ کرنے میں مکمل طور پر ناکام رہے۔ کریڈٹ رسک کی نمائش کو کم کرنے کے لیے کمپنی نے منظوری کا ایک باضابطہ عمل تیار کیا ہے جس کے تحت اس کے صارفین پر کریڈٹ کی حدیں لاگو ہوتی ہیں۔

لیکویڈیٹی کا خطرہ

لیکویڈیٹی رسک وہ خطرہ ہے جس کی وجہ سے کمپنی اپنی مالی ذمہ داریوں کو پورا نہیں کر سکے گی۔ لیکویڈیٹی کے انتظام کے لیے کمپنی کا نقطہ نظر یہ ہے کہ جہاں تک ممکن ہو اس بات کو یقینی بنایا جائے کہ واجب الادا واجبات کو پورا کرنے کے لیے ہمیشہ کافی لیکویڈیٹی ہو۔

داخلی مالیاتی کنٹرول کی مناسبت

کمپنی نے کمپنی کے اثاثوں کی حفاظت، دھوکہ دہی کو روکنے اور اس کا پتہ لگانے اور تمام قانونی اور قانونی تقاضوں کی تعمیل کو یقینی بنانے کے لیے اندرونی اور مالیاتی کنٹرول کا ایک موثر اور موثر نظام قائم کیا ہے۔ اندرونی کنٹرول کے ڈھانچے کا باقاعدگی سے جائزہ لیا جاتا ہے اور بورڈ کے ذریعہ قائم کردہ اندرونی آڈٹ فنکشن کے ذریعے نگرانی کی جاتی ہے۔ آڈٹ کمیٹی اپنے ریفرنس کی مدت کے مطابق سہ ماہی بنیادوں پر انٹرنل کنٹرول سسٹم کا جائزہ لیتی ہے۔

**کارپوریٹ سماجی ذمہ داری (CSR)**

کمپنی CSR کو ایک بنیادی ذمہ داری سمجھتی ہے اور ایک اچھا کارپوریٹ شہری بننے کی کوشش کرتی ہے۔ کمپنی صحت عامہ اور تعلیم کی سہولیات کی حمایت کر کے معاشرے میں اپنا حصہ ڈالتی ہے۔

مزید CSR اقدامات کے طور پر، سال کے دوران کمپنی نے سب سے اہم چیز کے طور پر کارکنوں اور عملے کی پیشہ ورانہ حفاظت اور صحت پر زیادہ زور دیا۔ کمپنی نے ایک کرائسٹین میٹھنٹ ٹیم تشکیل دی جس نے کووڈ-19 کے پھیلنے سے نمٹنے کے لیے اقدامات کو نافذ کیا۔ ٹیم نے مناسب احتیاطی تدابیر کے بارے میں آگاہی کے لیے کمپنی اور اس کے آس پاس کے تمام مقامات پر ایک مہم شروع کی جو کہ ایک فرد کو اپنے آپ کو اور ساتھیوں کو بچانے کے لیے اپنانا چاہیے۔ کمپنی باقاعدگی سے میڈیکل کیٹپ بھی منعقد کرتی ہے اور وائرل بیماریوں سے بچنے کے لیے فوگنگ مشینوں کے ذریعے تمام مینوفیکچرنگ سہولیات کے احاطے میں باقاعدہ فیوگیٹیشن کی جاتی ہے۔

بعد کے واقعات

30 جون 2022 اور 28 اکتوبر 2022 کے درمیان کمپنی کی مالی پوزیشن کو متاثر کرنے والی کوئی مادی تبدیلیاں اور وعدے نہیں ہوئے۔

کارپوریٹ اور مالیاتی رپورٹنگ فریم ورک

ڈائریکٹرز مندرجہ ذیل امور کے لیے سیکورٹیز اینڈ ایکسچینج کمیشن آف پاکستان اور لسٹڈ کمپنیز (کوڈ آف کارپوریٹ گورننس) ریگولیشنز، 2019 (سی سی جی ریگولیشنز) کے کارپوریٹ اور مالیاتی رپورٹنگ فریم ورک کی تعمیل کی تصدیق کرتے ہیں:

- (1) فضل کا تھ ملز لمیٹڈ کی انتظامیہ کی طرف سے تیار کردہ مالیاتی گوشواروں میں اس کی حالت، اس کے آپریشنز کے نتائج، کیش فلوا اور ایکویٹی میں ہونے والی تبدیلیوں کو پیش کیا گیا ہے۔
- (2) ان مالیاتی گوشواروں کی تیاری میں مناسب اکاؤنٹنگ پالیسیوں کا مسلسل اطلاق کیا گیا ہے اور اکاؤنٹنگ کے تخمینے معقول اور دانشمندانہ فیصلوں پر مبنی ہیں۔
- (3) کمپنی نے حساب کتاب کی مناسب دیکھ بھال کی ہے۔
- (4) بین الاقوامی اکاؤنٹنگ معیارات، جیسا کہ پاکستان میں لاگو ہوتا ہے، ان مالیاتی گوشواروں کی تیاری میں پیروی کی گئی ہے اور وہاں سے روانگیوں کو مناسب طور پر ظاہر کیا گیا ہے۔
- (5) اندرونی کنٹرول کا نظام ڈیزائن میں درست ہے اور اسے مؤثر طریقے سے لاگو کیا گیا ہے اور اس کی نگرانی کی گئی ہے۔ اندرونی کنٹرول کی نگرانی کا عمل جاری عمل کے طور پر جاری رہے گا جس کا مقصد کنٹرول کو مضبوط کرنا اور نظام میں بہتری لانا ہے۔
- (6) ایک جاری تشویش کے طور پر جاری رکھنے کی کمپنی کی صلاحیت کے بارے میں کوئی شک نہیں ہے۔
- (7) CCG ضوابط کے بہترین طریقوں سے کوئی مادی خارج نہیں ہوا ہے۔

(8) ٹیکسز، ڈیوٹی لیویز اور چارجز کی مد میں کوئی قانونی ادائیگیاں نہیں ہیں جو کہ 30 جون 2022 تک بقایا ہیں، سوائے ان مالیاتی گوشواروں کے جن کا انکشاف کیا گیا ہے۔

شیئر ہولڈنگ کا پیٹرن

30 جون 2022 تک شیئر ہولڈنگ کا پیٹرن منسلک ہے۔

ڈیویڈنڈ کا اعلان

آپ کے ڈائریکٹرز نے 10 روپے فی عام شیئر (یعنی 100%) کے حساب سے حتمی نقد ڈیویڈنڈ ادا کرنے کی سفارش کی ہے۔

آڈیٹرز

MS. KPMG تاثیر ہادی اینڈ کمپنی، چارٹرڈ اکاؤنٹنٹس، کمپنی کے آڈیٹرز ریٹائر ہو رہے ہیں اور اہل ہونے کی وجہ سے سال 2022-2023 کے لیے دوبارہ تقرری کی پیشکش کرتے ہیں۔

متعلقہ پارٹی لین دین

سال کے دوران، متعلقہ فریقوں کے ساتھ تمام لین دین کو مکمل کیا گیا ہے، اور ان لین دین کی تفصیل کمپنی کے مالی بیانات میں نوٹ 46 میں ظاہر کی گئی ہے۔

مینجمنٹ/مزدوری تعلقات

زیر نظر سال کے دوران انتظامیہ/مزدور تعلقات گرم جوش اور خوشگوار رہے۔ ہم اپنے ملازمین کو بہت اہمیت دیتے ہیں۔ ہم اپنے انسانی وسائل کی پیشہ ورانہ ترقی اور مہارتوں کی بہتری میں سرمایہ کاری کرتے رہتے ہیں، کیونکہ ہم سمجھتے ہیں کہ اپنے لوگوں میں سرمایہ کاری کر کے ہم اپنے مستقبل میں سرمایہ کاری کرتے ہیں۔ کمپنی کی انسانی وسائل کی پالیسی انصاف پسندی، میرٹ، مساوی مواقع اور سماجی ذمہ داری کی بنیادی اقدار پر مبنی ہے۔ اپنی انسانی وسائل کی پالیسیوں کی تعمیل کرتے ہوئے ہم کسی بھی چائلڈ لیبر کی خدمات حاصل نہیں کرتے ہیں۔ کمپنی کے ملازمین اور انتظامیہ نے پیداواری صلاحیت کے اعلیٰ معیار کو برقرار رکھنے کے لیے مشترکہ کوششیں جاری رکھیں۔ انتظامیہ اور ملازمین کے درمیان مکمل ہم آہنگی برقرار رہی۔ بورڈ ان نتائج کو حاصل کرنے کے لیے ان کی محنت اور لگن کے لیے ان سب کی دل کی گہرائیوں سے تعریف کرنا چاہتا ہے۔

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Fazal Cloth Mills Limited

Review Report on the Statement of Compliance contained in Listed Companies (Code of Corporate Governance) Regulations, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 ("the Regulations") prepared by the Board of Directors of Fazal Cloth Mills Limited ("the Company") for the year ended 30 June 2022 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended 30 June 2022.

INDEPENDENT AUDITOR'S REPORT

To the members of Fazal Cloth Mills Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the annexed financial statements of **Fazal Cloth Mills Limited** (“the Company”), which comprise the statement of financial position as at 30 June 2022, and the statement of profit or loss, statement of comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, statement of profit or loss, statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at 30 June 2022 and of the profit and other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the Key audit matters:

Sr. No.	Key audit matters	How the matter was addressed in our audit
01	<p>Revenue from contracts with customers</p> <p>Refer to notes 4.16 and 30 to the financial statements.</p> <p>The Company recognized revenue of Rs. 65,406.26 million from the sale of goods to domestic as well as export customers during the year ended 30 June 2022.</p> <p>We identified recognition of revenue as a key audit matter because revenue is one of the key performance indicators of the Company and gives rise to a risk that revenue may be recognized without transferring the control.</p>	<p>Our audit procedures to assess recognition of revenue, amongst others, included the following:</p> <ul style="list-style-type: none"> • obtaining an understanding of the process relating to recording of revenue and testing the design, implementation and operating effectiveness of key internal controls; • assessing the appropriateness of the Company's accounting policies for recording of revenue and compliance of those policies with applicable accounting standards; • comparing a sample of revenue transactions recorded during the year with sales orders, sales invoices, delivery documents and other relevant underlying documents to assess whether the related revenue was recorded in accordance with the Company's accounting policy; • comparing, on a sample basis, specific revenue transactions recorded just before and after the financial year end date to determine whether the revenue had been recognized in the appropriate financial period; and • scanning for any manual journal entries relating to sales raised during the year which were considered to be material or met other specific risk based criteria for inspecting underlying documentation.
02	<p>Valuation of Investment in Fatima Energy Limited</p> <p>Refer note 2.4.9, 4.11.2 and 18.2 to the financial statements.</p> <p>The Company holds investment of Rs. 1,151.22 million in ordinary shares and investment of Rs. 3,552.63 in preference shares of Fatima Energy Limited (FEL). These investments have been classified and measured at fair value through OCI under IFRS 9.</p> <p>Equity investment of FEL are not listed and do not have a quoted price in an active market. Therefore, fair value of these investments has been determined through valuation methodology based on discounted cash flow model.</p> <p>This involves several estimation techniques and management's judgements to obtain reasonable and expected future cash flows of business and related discount rates. Management involved an expert to perform these valuations on its behalf.</p>	<p>Our audit procedures, amongst others, included the following:</p> <ul style="list-style-type: none"> • understanding and evaluating the process by which the cash flow forecasts were prepared and approved, including confirming the mathematical accuracy of the underlying calculations; • evaluating the cash flow forecasts by obtaining an understanding of business of FEL; • evaluating the valuer's competence, capability and objectivity and assessing the appropriateness of methodology adopted by the professional valuer engaged by the management; • involving our internal valuation specialist to assist us in assessing the significant assumptions and judgments applied by management in the cash flow forecasts, including discount rate, projected growth rates, future revenue and costs and production volumes, with reference to available market information; • performing independently, a sensitivity analysis in consideration of the potential impact of reasonably possible upside or downside changes in key assumptions; and

Sr. No.	Key audit matters	How the matter was addressed in our audit
	Due to the significant level of judgement and estimation required to determine the fair values of the investments, we consider it to be a key audit matter.	<ul style="list-style-type: none">• assessing the adequacy of the disclosures made by the Company in this area with regard to applicable accounting and reporting standards.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. Other information comprises the information included in the annual report for the year ended 30 June 2022 but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017(XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017(XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Company and deposited in the Central Zakat Fund established under section 7 of that Ordinance, subsequent to the year end.

The engagement partner on the audit resulting in this independent auditor's report is Bilal Ali.

Notes to the Financial Statements

For the year ended 30 June 2022

1 Corporate and general information

1.1 Fazal Cloth Mills Limited ("the Company") was incorporated in Pakistan in 1966 as a Public Limited Company under the Companies Act, 1913 (now the Companies Act, 2017). The shares of the Company are quoted on Pakistan Stock Exchange ('PSX'). The registered office of the Company is situated at 69/7, Abid Majeed Road, Survey No. 248/7, Lahore Cantt, Lahore. The Company is principally engaged in manufacture and sale of yarn and fabric. The manufacturing facilities and warehouses are located at Fazal Nagar, Jhang Road, Muzaffargarh and Qadirpur Rawan Bypass, Khanewal Road, Multan in the province of Punjab.

The Company has following investments in associated undertakings:

Name of the company	Shareholding	Nature	Place of business
Fatima Transmission Company Limited ('FTCL')	24.00%	Transmission of energy	Sanawan, Kot Addu, Punjab
Fatima Electric Company Limited ('FECL')	20.00%	Energy generation	Khayaban-e-Jinnah Lahore Cantt

1.2 During the year, Board of Directors of the Company in the meeting held on 30 September 2021, approved the acquisition of Imperial Textile Mills Limited (ITML), a dormant entity. Share purchase agreement between the Company and the shareholders of ITML was signed on 30 September 2021, however the transfer of shares and transfer of control of ITML to the Company was completed on 01 May 2022 after completion of necessary regulatory approvals. ITML's manufacturing facility is located near to Company's manufacturing facility in Muzaffargarh and will be instrumental in expansion of Company's production capacity. ITML was principally engaged in manufacture and sale of yarn. The registered office of ITML is situated at H 8/3 Aziz Avenue Canal Road, Gulberg-V, Lahore and its manufacturing facilities are located at Village Khanpur Bagga Sher, District Muzaffargarh in the province of Punjab. The head office of ITML is situated at House No. 493, G-III, Phase II, Johar Town, Lahore.

The Company has filed a scheme of arrangement with the Securities and Exchange Commission of Pakistan (SECP) to amalgamate ITML with the Company with effect from 01 June 2022. The approval for scheme of amalgamation was granted on 28 October 2022. Pursuant to this order, the acquired company Imperial Textile Mills Limited was merged within the Company through asset acquisition accounting treatment as explained in note 4.12 and 48.

1.3 Impact of COVID-19 on the financial statements

On 11 March 2020, COVID-19 was declared a pandemic by the World Health Organization, impacting countries globally. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services and factories have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. The potential impacts from COVID-19 remain uncertain, including, among other things, on economic conditions, businesses and consumers. However, the impact varies from industry to industry in different jurisdictions. As per relaxation given by the authorities to export oriented entities, the Company continued its operations uninterrupted during the year with all precautionary measures to prevent the pandemic spread.

There is no material financial impact of COVID-19 on the carrying amounts of assets and liabilities or items of income and expenses.

Based on management's assessment, considering demand from its customers, availability of raw material and measures taken by Government to support the industry, COVID-19 does not have a significant impact on the Company.

2 Basis of preparation

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan.

The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards ('IFRS') issued by the International Accounting Standards Board ('IASB') as notified under the Companies Act 2017;
- Islamic Financial Accounting Standards ('IFAS') issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and
- Provision of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Basis of measurement

These financial statements have been prepared on the historical cost convention except for certain items of property, plant and equipment that are stated at revalued amounts (note 4.1), recognition of staff retirement benefits at present value (note 4.8) and revaluation of certain financial instruments at fair values (note 4.11). The methods used to measure fair values are discussed further in their respective policy notes.

2.3 Functional and presentation currency

These financial statements have been prepared in Pak Rupees ('Rs.') which is the Company's functional currency. All financial information has been rounded to the nearest rupee, except when otherwise indicated.

2.4 Use of estimates and judgments

The preparation of financial statements in conformity with approved accounting standards, as applicable in Pakistan, requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which from the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on a continuous basis. Revisions to accounting estimates are recognized in the period in which estimates are revised if the revision affects only that period, or in the period of the revision and future periods affected.

The areas where assumptions and estimates are relevant to the Company's financial statements or where judgement was exercised in application of accounting policies are as follows:

2.4.1 Property, plant and equipment

The Company reviews the useful lives, residual values, depreciation method and rates for each item of property, plant and equipment on regular basis by considering expected pattern of economic benefits that the Company expects to derive from that item and the maximum period upto which such benefits are expected to be available.

Any change in the estimates in future years might affect the carrying amounts of the respective items of property, plant and equipment with a corresponding effect on the depreciation charge and impairment.

2.4.2 Recoverable amount of assets/ cash generating units and impairment

The management of the Company reviews carrying amounts of its assets and cash generating units for possible impairment and makes formal estimates of recoverable amount if there is any such indication.

2.4.3 Revaluation of property, plant and equipment

Revaluation of property, plant and equipment is carried out by independent professional valuers. Revalued amounts of non-depreciable items are determined by reference to local market values and that of depreciable items are determined by reference to present depreciated replacement values.

The frequency of revaluations depends upon the changes in fair values of the items of property, plant and equipment being revalued. When the fair value of a revalued asset differs materially from its carrying amount, a further revaluation is required. Such frequent revaluations are unnecessary for items of property, plant and equipment with only insignificant changes in fair value. It may be necessary to revalue the item only every three to five years.

2.4.4 Stores, spares, loose tools and stock-in-trade

The Company reviews the stores, spares, loose tools and stock-in-trade for possible impairment on an annual basis. Any change in the estimates in future years might affect the carrying amounts of the respective items of stores, spares and loose tools and stock-in-trade with a corresponding effect on the provision.

2.4.5 Expected credit loss (ECL)/ Loss allowance against trade debts, other receivables, loan, advances and deposits, mark up accrued and bank balances

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive. The shortfall is then discounted at an approximation to the assets' original effective interest rate.

The Company has elected to measure loss allowances for trade debts using IFRS 9 simplified approach and has calculated ECLs based on lifetime ECLs. The Company has established a provision matrix that is based on the Company's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort.

This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment including forward-looking information.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk. Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

The Company reviews the recoverability of its trade debts, other receivables, loans advances and deposits, mark up accrued and bank balances to assess amount of loss allowance required on an annual basis.

2.4.6 Provisions and Contingencies

The Company reviews the status of all pending litigations and claims against the Company. Based on the judgment and the advice of the legal advisors for the estimated financial outcome, appropriate disclosure or provision is made. The actual outcome of these litigations and claims can have an effect on the carrying amounts of the liabilities recognized at the statement of financial position date. However, based on the best judgment of the Company and its legal advisors, the likely outcome of these litigations and claims is remote and there is no need to recognize any liability at the reporting date.

2.4.7 Employee benefits

The Company operates an un-funded gratuity scheme covering all eligible employees completing the minimum qualifying period of service as specified by the scheme. Annual provision is made on the basis of actuarial valuation to cover obligations under the scheme for all employees eligible to gratuity benefits respective of the qualifying period. The Projected Unit Credit method used for the valuation of the scheme is based on assumptions stated in note 11.1.

2.4.8 Taxation

The Company takes into account the current income tax law and decisions taken by the taxation authorities. Instances where the Company's views differ from the views taken by the income tax department at the assessment stage and where the Company considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

The Company also regularly reviews the trend of proportion of incomes between 'Final Tax Regime' income and 'Normal Tax Regime' income and the change in proportions, if significant, is accounted for in the year of change.

2.4.9 Fair value of investments

The Company regularly reviews the fair value of investments including level 3 fair values. The estimate of fair values are based on both observable market data and unobservable inputs. Any change in estimate will effect the carrying value of investments with the corresponding impact on statement of profit of loss except for equity investments at fair value through OCI which are directly charged to statement of comprehensive income. The valuation technique and inputs are disclosed in note 40.

3 Standards, amendments or interpretations to published approved accounting standards, that are not yet effective

3.1 Standards, amendments or interpretations to published approved accounting standards, that are not yet effective

The following International Financial Reporting Standards (IFRS Standards) as notified under the Companies Act, 2017 and the amendments and interpretations thereto will be effective for accounting periods beginning on or after 01 July 2022:

- Onerous Contracts – Cost of Fulfilling a Contract (Amendments to IAS 37) effective for the annual periods beginning on or after 01 January 2022 clarifies that the 'cost of fulfilling a contract' for the purposes of the onerous contract assessment comprises the costs that relate directly to the contract, including both the incremental costs and an allocation of other direct costs to fulfil the contract. An entity is required to apply the amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments (the date of initial application). Restatement of comparative information is not required, instead the amendments require an entity to recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate, at the date of initial application.

- The following annual improvements to IFRS Standards 2018-2020 are effective for annual reporting periods beginning on or after 01 January 2022.
 - IFRS 9 – The amendment clarifies that an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other’s behalf, when it applies the ‘10 per cent’ test in paragraph B3.3.6 of IFRS 9 in assessing whether to derecognize a financial liability.
 - IFRS 16 – The amendment partially amends Illustrative Example 13 accompanying IFRS 16 by excluding the illustration of reimbursement of leasehold improvements by the lessor. The objective of the amendment is to resolve any potential confusion that might arise in lease incentives.
 - IAS 41 – The amendment removes the requirement in paragraph 22 of IAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique. This amendment enables the fair value measurement of biological assets on a post-tax basis.

- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16) effective for annual periods beginning on or after 01 January 2022 clarifies that sales proceeds and costs of items produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management e.g. when testing etc., are recognized in profit or loss in accordance with applicable Standards. The entity measures the cost of those items applying the measurement requirements of IAS 2. The standard also removes the requirement of deducting the net sales proceeds from cost of testing. An entity shall apply those amendments retrospectively, but only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments.

The entity shall recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of that earliest period presented.

- Reference to the Conceptual Framework (Amendments to IFRS 3) - Reference to the Conceptual Framework, issued in May 2020, amended paragraphs 11, 14, 21, 22 and 23 of and added paragraphs 21A, 21B, 21C and 23A to IFRS 3 . An entity shall apply those amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 01 January 2022.
- Classification of liabilities as current or non-current (Amendments to IAS 1) apply retrospectively for the annual periods beginning on or after 01 January 2023. These amendments in the standards have been added to further clarify when a liability is classified as current. Convertible debt may need to be reclassified as ‘current’. The standard also amends the aspect of classification of liability as non-current by requiring the assessment of the entity’s right at the end of the reporting period to defer the settlement of liability for at least twelve months after the reporting period. An entity’s expectation and discretion at the reporting date to refinance or to reschedule payments on a long-term basis are no longer relevant for the classification of a liability as current or non-current. An entity shall apply those amendments retrospectively in accordance with IAS 8.

- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) – the Board has issued amendments on the application of materiality to disclosure of accounting policies and to help companies provide useful accounting policy disclosures. The key amendments to IAS 1 include:
 - requiring companies to disclose their material accounting policies rather than their significant accounting policies;
 - clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and
 - clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a Company’s financial statements.

The Board also amended IFRS Practice Statement 2 to include guidance and two additional examples on the application of materiality to accounting policy disclosures. The amendments are effective for annual reporting periods beginning on or after 01 January 2023 with earlier application permitted.

- Definition of Accounting Estimates (Amendments to IAS 8) introduce a new definition for accounting estimates clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty. The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that an entity develops an accounting estimate to achieve the objective set out by an accounting policy. The amendments are effective for periods beginning on or after 01 January 2023, with earlier application permitted, and will apply prospectively to changes in accounting estimates and changes in accounting policies occurring on or after the beginning of the first annual reporting period in which the Company applies the amendments.
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12) narrow the scope of the initial recognition exemption (IRE) so that it does not apply to transactions that give rise to equal and offsetting temporary differences.

As a result, companies will need to recognize a deferred tax asset and a deferred tax liability for temporary differences arising on initial recognition of a lease and a decommissioning provision. For leases and decommissioning liabilities, the associated deferred tax asset and liabilities will need to be recognized from the beginning of the earliest comparative period presented, with any cumulative effect recognized as an adjustment to retained earnings or other components of equity at that date. The amendments are effective for annual reporting periods beginning on or after 01 January 2023 with earlier application permitted.

- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28) – The amendment amends accounting treatment on loss of control of business or assets. The amendments also introduce new accounting for less frequent transaction that involves neither cost nor full step-up of certain retained interests in assets that are not businesses. The effective date for these changes has been deferred indefinitely until the completion of a broader review.

The above amendments are effective from annual period beginning on or after 01 July 2022 and the management is in the process of determining the impact of these on the Company's financial statements.

4 Significant accounting policies

The significant accounting policies set out below have been consistently applied to all periods presented in these financial statements.

4.1 Property, plant and equipment

Owned

Freehold land is measured at revalued amount less impairment if any.

Factory building', 'non-factory building', 'plant and machinery', 'electric fitting and installations', 'tools', 'laboratory equipment, sui gas installations and arms' and 'fire extinguishing equipment and scales' are measured at revalued amount less accumulated depreciation and impairment if any.

Office equipment, furniture and fixture and vehicles are measured at cost less accumulated depreciation and impairment if any.

Capitalization threshold for 'building', 'office equipment', electric appliances and furniture and fixture is Rs. 200,000, Rs. 10,000, Rs. 5,000 and Rs. 5,000 respectively, items below this are directly recongised as current expenses in the year of purchase.

Cost comprises purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates and other costs directly attributable to the acquisition or construction including expenditures on material, labor and overheads directly relating to construction, erection and installation of operating fixed assets.

Depreciation is charged on a systematic basis over the useful life of the assets, on reducing balance method, which reflects the patterns in which the economic benefits are consumed by the Company, at the rates specified in note 17.1. Depreciation on additions is charged full in the month of the asset is available for use and nil in the month the asset is disposed off.

An item of property, plant and equipment is de-recognized when permanently retired from use. The gain or loss on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is recognized as an income or expense.

Major renewals and improvements to an item of property, plant and equipment are recognized in the carrying amount of the item if it is probable that the embodied future economic benefits will flow to the Company and the cost of renewal or improvement can be measured reliably. The cost of the day-to-day servicing of property, plant and equipment are recognized in statement of profit or loss as incurred.

The asset's residual values and useful lives are continually reviewed by the Company and adjusted if impact on depreciation is significant. The Company's estimate of residual values of property, plant and equipment as at 30 June 2022 has not required any adjustment as its impact is considered insignificant.

Capital work-in-progress

Capital work in progress is stated at cost less identified impairment loss, if any. Cost includes expenditures on material, labour, appropriate directly attributable overheads and includes borrowing cost in respect of qualifying assets if any, as stated in note 4.5. These costs are transferred to operating fixed assets as and when assets are available for their intended use.

Assets held for sale

Non-current assets, or disposal Companies comprising assets and liabilities, are classified as held-for sale if it is highly probable that they will be recovered primarily through sale rather than through continuing use. Such assets, or disposal Companies, are generally measured at the lower of their carrying amount and fair value less costs to sell. Any impairment loss on a disposal Company is allocated first to goodwill, and then to the remaining assets and liabilities on a pro-rata basis, except that no loss is allocated to inventories, financial assets, deferred tax assets, employee benefit assets, investment property or biological asset, which continue to be measured in accordance with the Company's other accounting policies. Impairment losses on initial classification as held-for-sale or held-for-distribution and subsequent gains and losses on remeasurement are recognized in profit or loss. Once classified as held-for-sale, intangible assets and property, plant and equipment are no longer amortized or depreciated, and any equity-accounted investee is no longer equity accounted.

4.2 Revaluation surplus on property, plant and equipment

Revaluation of items of property, plant and equipment measured at revalued amount is carried out with sufficient regularity to ensure that the carrying amount of assets does not differ materially from the fair value. Any revaluation increase arising on the revaluation is recognized, by restating gross carrying amounts and accumulated depreciation of respective assets being revalued in proportion to the change in their carrying amounts due to revaluation, in other comprehensive income and presented as a separate component of equity as 'Revaluation surplus on property, plant and equipment', except to the extent that it reverses a revaluation decrease for the same asset previously recognized in profit or loss, in which case the increase is credited to statement of profit or loss to the extent of the decrease previously charged. Any decrease in carrying amount arising on the revaluation is charged to statement of profit or loss to the extent that it exceeds the balance, if any, held in the revaluation surplus on property, plant and equipment relating to a previous revaluation of that asset.

The revaluation reserve is not available for distribution to the Company's shareholders. The revaluation surplus on item of property, plant and equipment measured at revalued amount, except land, is transferred to unappropriated profit to the extent of incremental depreciation charged (net of deferred tax). Upon disposal, any revaluation surplus is transferred to unappropriated profit (net of deferred tax).

4.3 Lease

At the inception of a contract, the Company assesses whether a contract is or contains lease. A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company uses the definition of a lease in IFRS 16.

The Company recognizes a right of use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct cost incurred less any lease incentive received. The right of use asset is subsequently measured at cost less accumulated depreciation and impairment losses, and adjusted for certain re-measurements of the lease liability, if any. The right of use assets is depreciated using the straight line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or cost of the right of use asset reflects that the Company will exercise a purchase option.

In that case the right of use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property, plant and equipment. Right of use asset is disclosed in the property, plant and equipment as referred to in note 17.1 of the financial statements.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the Company's incremental borrowing rate. The Company has used its incremental borrowing rate as the discount rate for leases where rate is not readily available. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payment made.

The lease liability is measured at amortized cost using the effective interest method. It is re-measured when there is a change in future lease payments arising from a change in rate or a change in the terms of the lease arrangement, if there is change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment. When the lease liability is re-measured in this way, a corresponding adjustment is made to the carrying amount of the right of use asset, or is recorded in statement of profit or loss if the carrying amount of the right of use asset has been reduced to zero. Refer note 10 to these financial statements for disclosure of lease liability.

Short term leases and leases of low value assets

The Company has elected not to recognize right of use assets and liabilities for some leases of low value assets. The Company recognizes the lease payments associated with these leases as an expense on a straight line basis over the lease term.

Sale and lease back

Where the sale and lease back transactions result in a lease liability, any excess of sale proceeds over the carrying amount is deferred and amortized over the lease term. However, sale proceeds less than the carrying value is immediately recognized in the statement of profit or loss.

4.4 Intangible assets

Expenditure incurred on intangible asset is capitalized and stated at cost less accumulated amortization and any accumulated impairment losses. Intangible assets are amortized using the straight-line method over the estimated useful life of three years. Amortization of intangible assets is commenced from the date an asset is capitalized.

4.5 Borrowing cost

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowing costs are recognized as an expense in the period in which these are incurred except to the extent of borrowing cost that are directly attributable to the acquisition, construction or production of a qualifying asset, which are assets that necessarily take a substantial year of time to get ready for their intended use or sale, are added to the cost of those assets to the extent the carrying amount of the assets does not exceed its recoverable value, until such time as the assets are substantially ready for their intended use or sale.

4.6 Taxation

Income tax expense comprises current tax and deferred tax. It is recognized in statement of profit or loss except to the extent that it relates to items recognized directly in other comprehensive income, in which case it is recognized in equity.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under IAS 37 Provisions, Contingent liabilities and Contingent assets.

Current

Current tax is the amount of tax payable on taxable income for the year, using tax rates enacted or substantively enacted by the reporting date, and any adjustment to the tax payable in respect of previous years. Provision for current tax is based on current rates of taxation in Pakistan after taking into account tax credits, rebates and exemptions available, if any. The amount of unpaid income tax in respect of the current or prior periods is recognized as a liability. Any excess paid over what is due in respect of the current or prior periods is recognized as an asset.

Deferred

Deferred tax is recognized using balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used

for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using the enacted or substantively enacted rates of taxation. A deferred tax liability is recognized for all taxable temporary differences. A deferred tax asset is recognized for deductible temporary differences to the extent that future taxable profits will be available against which temporary differences can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized. Further, the Company recognizes deferred tax asset/ liability on deficit/ surplus on revaluation of property, plant and equipment which is adjusted against the related deficit/ surplus.

The Company accounts for the tax consequences of transactions and other events in the same way that it accounts for the transactions and other events themselves. Thus, for transactions and other events recognized in statement of profit or loss, any related tax effects are also recognized in statement of profit or loss. For transactions and other events recognized outside statement of profit or loss (either in other comprehensive income or directly in equity), any related tax effects are also recognized outside profit and loss (either in other comprehensive income or directly in equity, respectively).

4.7 Foreign currency

Transactions in foreign currencies are translated to the respective functional currencies of the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortized cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortized cost in foreign currency translated at the exchange rate at the end of the year.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Foreign currency differences arising on retranslation are generally recognized in the statement of profit or loss.

4.8 Employee retirement benefits

The Company's net obligation in respect of defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount. Calculation of defined benefit obligation is performed annually by a qualified actuary using the 'Projected Unit Credit Method'.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognized immediately in other comprehensive income. The Company determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments.

Net interest expense and other expenses related to defined benefit plan are recognized in the statement of profit or loss. Past service costs are immediately recognized in statement of profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in statement of profit or loss. The Company recognizes gain and losses on the settlement of a defined benefit plan when the settlement occurs.

4.9 Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. However, provisions are reviewed at each reporting date and adjusted to reflect current best estimate.

4.10 Contingent liabilities

A contingent liability is disclosed when:

- there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or
- there is present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

4.11 Financial instruments

4.11.1 Recognition and initial measurement

All financial assets or financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A receivable without a significant financing component is initially measured at the transaction price.

4.11.2 Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at amortized cost, fair value through other comprehensive income (FVOCI) and fair value through profit or loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

**Amortized cost**

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in statement of profit or loss.

Financial assets measured at amortized cost comprise of cash and bank balances, deposits, loan and advances, mark up accrued, trade debts and other receivables.

Debt Instrument - FVOCI

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in statement of profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to statement of profit or loss. However, the Company has no such instrument at the reporting date.

Equity Instrument - FVOCI

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to statement of profit or loss.

Financial assets measured at FVOCI comprise of long term investments as included in note 18 of these financial statements.

**Fair value through profit or loss (FVTPL)**

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL.

On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in statement of profit or loss.

Financial asset measured at FVTPL comprise of short term investments in equity instruments as detailed in note 26 of these financial statements.

Financial assets – Business model assessment:

For the purposes of the assessment, ‘principal’ is defined as the fair value of the financial asset on initial recognition. ‘Interest’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Company’s claim to cash flows from specified assets (e.g. non-recourse features).

Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in statement of profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in statement of profit or loss. Any gain or loss on derecognition is also recognized in statement of profit or loss.

Financial liabilities comprises of trade and other payables, long term and short term financing, dividend payable, accrued markup and lease liability.

4.11.3 Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company might enter into transactions whereby it transfers assets recognized in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in statement of profit or loss.

4.11.4 Impairment

Financial assets

The Company recognizes loss allowances for ECLs on:

- financial assets measured at amortized cost;
- debt investments measured at FVOCI; and
- contract assets.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The Company measured its long term advances and related markup to associated companies under the general approach.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Loss allowances for financial assets measured at amortized cost are deducted from the Gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering of a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery.

The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Non-financial assets

The carrying amount of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of an asset or cash generating unit is the greater of its value in use and its fair value less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present values using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash generating unit.

An impairment loss is recognized if the carrying amount of the assets or its cash generating unit exceeds its estimated recoverable amount. Impairment losses are recognized in statement of profit or loss. Impairment losses recognized in respect of cash generating units are allocated to reduce the carrying amounts of the assets in a unit on a pro rata basis. Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to that extent that the asset's carrying amount after the reversal does not exceed the carrying amount that would have been determined, net of depreciation and amortization, if no impairment loss had been recognized.

4.11.5 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

4.12 Acquisition of assets that do not constitute a business

When the Company acquires an asset or a Company (including any liabilities assumed) that does not constitute a business, then the transaction is outside the scope of IFRS 03 'Business Combinations' since it does not meet the definition of a business combination. Such transactions are accounted for by the Company as asset acquisitions in which the cost of acquisition is generally allocated between the individual identifiable assets and liabilities acquired based on their relative fair values at the date of acquisition. These transactions do not give rise to goodwill or a gain on a bargain purchase.

Assets acquired in an asset acquisition are recognized based on the cost of acquisition. The cost of an asset acquisition may comprise the following:

- cash or cash equivalent price at the date of acquisition;
- fair value of non-cash consideration (e.g. non-cash assets given up or liabilities assumed); and
- transaction costs directly attributable to the acquisition of the assets.

Under asset acquisition, for any identifiable asset or liability initially measured at an amount other than cost, the Company initially measures that asset or liability at the amount specified in the applicable IFRS Standard. The Company deducts from the transaction price, the amounts allocated to the assets and liabilities initially measured at an amount other than cost, and then allocates the residual transaction price to the remaining identifiable assets and liabilities based on their relative fair values at the date of the acquisition.

4.13 Investments in associates

Associates are the entities over which the Company has significant influence but not control. Significant influence is generally considered where shareholding percentage is between 20% to 50% of the voting shares. However, such significant influence can also arise where shareholding is lesser than 20% but due to other quantitative factors e.g. Company's representation on the Board of Directors of investee Company, the Company can exercise significant influence. Investments in associates are accounted for using the equity method of accounting in these financial statements and are initially recognized at cost. If the ownership interest is reduced but significant influence is retained, gain / loss on the partial disposal of ownership interest is recognized in the statement of profit or loss as the difference between the proceeds from the sale and the cost of investment sold. The cost of investment is disposed off on weighted average basis.

The Company's share of its associate's post-acquisition profits or losses, movement in other comprehensive income, and its share of post-acquisition movements in reserves is recognized in the statement of profit or loss, statement of comprehensive income and reserves respectively. When the Company's share of losses in associates / joint ventures equals or exceeds its interest in the associate

including any other unsecured receivables, the Company does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associates. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Distributions received from an associate reduce the carrying amount of the investment.

The carrying amount of equity accounting investments is tested for impairment in accordance with policy described in note 4.11.4.

4.14 Stores, spares and loose tools

These are stated at lower of cost and net realizable value. Cost is determined using the weighted average method. Items in transit are valued at cost comprising invoice value plus other charges paid thereon.

4.15 Stock-in-trade

These are stated at the lower of cost and net realizable value except for waste stock which is valued at net realizable value.

Cost has been determined as follows:

- | | |
|--------------------------------------|---|
| - Raw materials | Weighted average cost |
| - Work-in-process and finished goods | Cost of direct materials, labour and appropriate manufacturing overheads. |

Materials in transit comprises of invoice value plus other charges paid thereon.

Net realizable value signifies the estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs necessary to make the sale necessarily to be incurred in order to make a sale.

4.16 Revenue recognition

Revenue represents the fair value of the consideration received or receivable for sale of goods, net of returns, allowances, trade discounts, rebates and sales tax. Revenue is recognized when or as performance obligations are satisfied by transferring control of a promised goods or services to a customer, and control either transfers over time or point in time.

4.17 Other Income

Other income comprises dividend income, exchange gain, markup accrued notional gain on discounting and changes in the fair value of financial asset at fair value through profit or loss. Income on bank deposits is accrued on a time proportion basis by reference to the principal outstanding and the applicable rate of return. Foreign currency gains and losses are reported on a net basis.

Dividend income and entitlement of bonus shares are recognized when the right to receive is established.

Gains and losses on sale of investments are accounted for on disposal of investments.

4.18 Government grants

The Company recognizes government grants when there is reasonable assurance that grants will be received and the Company will be able to comply with conditions associated with grants.

Government grants are recognized at fair value, as deferred income, when there is reasonable assurance that the grants will be received and the Company will be able to comply with the conditions associated with the grants.

Grants that compensate the Company for expenses incurred, are recognized on a systematic basis in the income for the year in which the related expenses are recognized. Grants that compensate for the cost of an asset are recognized in income on a systematic basis over the expected useful life of the related asset.

A loan is initially recognized and subsequently measured in accordance with IFRS 9. IFRS 9 requires loans at below-market rates to be initially measured at their fair value - e.g. the present value of the expected future cash flows discounted at a market-related interest rate. The benefit that the government grant is measured as the difference between the fair value of the loan on initial recognition and the amount received, which is accounted for according to the nature of the grant. The amount of grant shall be recognized and presented in the statement of financial position as 'deferred grant'. In subsequent periods, the loan amount is accreted using the effective interest method.

The accreditation increases the carrying value of the loan with a corresponding effect on the interest expense for the year in the statement of profit or loss. The grant is recognized in statement of profit or loss, in line with the recognition of interest expenses the grant is compensating.

4.19 Cash and cash equivalents

Cash and cash equivalents for the purpose of statement of cash flows comprise cash in hand and cash at banks. Cash and cash equivalents are carried in statement of financial position at amortised cost.

4.20 Contract liabilities

A contract liability is the obligation of the Company to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract. It also includes refund liabilities arising out of customers' right to claim amounts from the Company on account of contractual delays in delivery of performance obligations and incentive on target achievements.

4.21 Operating segment

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses. All operating segments' operating results are regularly reviewed by the Company's Chief Executive Officer to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. The details related to operating segments are disclosed in note 47.

**4.22 Earnings per share ('EPS')**

Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

Diluted EPS is calculated by adjusting basic EPS by the weighted average number of ordinary shares that would be issued on conversion of all dilutive potential ordinary shares into ordinary shares and post-tax effect of changes in profit and loss attributable to ordinary shareholders of the Company that would result from conversion of all dilutive potential ordinary shares into ordinary shares.

4.23 Dividend distribution

Dividend is recognized as a liability in the statement of financial position in the year in which it is declared and approved. Appropriations of profit are reflected in the statement of changes in equity in the period in which such appropriations are approved.

Previously, the revaluation of the Company was carried out on 30 June 2007, 31 March 2012, 31 March 2015, and 28 February 2018 by independent valuers resulting in additional surplus of Rs. 2,915 million, Rs. 2,028 million, Rs. 4,398 million and Rs. 4,589 million, respectively.

**Freehold land**

Fair market value of freehold land is assessed through examining plot profile and purchase terms, independent inquiries from local active realtors, current and past occupants of land, neighboring areas, current asking prices for industrial used land in the vicinity, access roads and independent inquiries from other real estate sources to ascertain the selling prices for the properties of the same nature.

Factory and non-factory building

Construction specifications were noted for each building and structure and new construction rates are applied according to construction specifications for current replacement values. After determining current replacement values, residual factors are applied based on estimate of balance useful life to determine the current assessed market value.

Plant and machinery and others fixed assets

Plant and machinery and other fixed assets have been evaluated/ assessed by inspecting items of plant and machinery and fixed assets. The valuer also consulted industry related dealers, indentors and/ or manufactures in order to ascertain the current replacement values of imported and locally fabricated items. The value assigned reflects the present condition of items while considering age, condition and/ or obsolescence of the items.

11.1.6

Actuarial assumptions used for valuation of liability at 30 June against defined benefit obligation are as under:

The following are the principal actuarial assumptions at statement of financial position date:

	<u>2022</u>	<u>2021</u>
Discount rate used for interest cost	10.00% per annum	8.50% per annum
Discount rate used for year end obligation	13.25% per annum	10.00% per annum
Expected rate of growth per annum in future salaries	11.25% per annum	9.00% per annum
Mortality rates	SLIC (2001 - 05)	SLIC (2001 - 05)
Retirement assumption	Setback 1 Year Age 60	Setback 1 Year Age 60

11.1.7

Sensitivity analysis of defined benefit obligation to changes in the actuarial assumptions

Reasonably possible changes at the statement of financial position date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

	<u>2022</u>		<u>2021</u>	
	Impact on defined benefit obligation		Impact on defined benefit obligation	
	Change in assumption	Decrease in assumption	Change in assumption	Decrease in assumption
	Percentage ----- Rupees -----		Percentage ----- Rupees -----	
Discount rate	1.00%	<u>322,423,537</u>	1.00%	<u>269,279,591</u>
Salary growth rate	1.00%	<u>363,305,986</u>	1.00%	<u>309,522,342</u>
		<u>363,314,019</u>		<u>309,529,186</u>
		<u>322,419,576</u>		<u>269,276,283</u>

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied when calculating the defined benefit obligation recognized in the statement of financial position.

11.1.8

The Company expects to charge Rs. 157.88 million against current service cost and Rs. 45.35 million against net interest cost, aggregating to Rs. 203.23 million, to 'statement of Profit or Loss' in respect of defined benefit plan in 2023.

11.1.9 The Company exposure to the actuarial risks are as follows:

a) **Salary risks**

The risk that the final salary at the time of cessation of service is greater than the assumed. Since the benefit is calculated on the final salary (which will closely reflect inflation and other macroeconomic factors), the benefit amount increases as salary increases.

b) **Demographic risks**

Mortality Risk

The risk that the actual mortality experience is different than the assumed mortality. This effect is more pronounced in schemes where the age and service distribution is on the higher side.

Withdrawal Risk

The risk of actual withdrawals experience is different from assumed withdrawal probability. The significance of the withdrawal risk varies with the age, service and the entitled benefits of the beneficiary.

11.1.10 Gratuity scheme entitles members of staff retirement benefit plan on resignation, termination, retirement, early retirement, retrenchment, death and dismissal based, on the Company's service rules, for staff gratuity. Gratuity is based on the last month basic salary for each year of service.

11.2 **Deferred taxation**

12.1 The Honorable Supreme Court of Pakistan (SCP) vide judgement dated 13 August 2020 decided the appeal and declared the GIDC Act, 2015 to be constitutional and recoverable from the gas consumers. A review petition was filed against the judgment which was also dismissed. SCP in detailed judgment stated that the Cess under GIDC Act, 2015 is applicable only to those consumers of natural gas which have passed on GIDC burden to their end customers for their business activities.

The Company has filed a civil suit before the Honorable Sindh High Court (SHC) on the grounds that the Company has not passed on the impact of GIDC to end customers. SHC has granted stay order and has restrained SNGPL from taking any coercive action against the Company. The case is pending for adjudication. The Company has recorded the liability of GIDC under GIDC Act, 2015 which is classified in accrued liabilities. Last year, the current and non-current portion of GIDC payable was included in accrued liabilities and long-term payable respectively.

This also includes an amount of Rs. 269.98 million (2021: Rs. Nil) accrued against purchase of electricity from Fatima Energy Limited for the month of June 2022.

12.3 This represent provision against 'Sindh Infrastructure Cess', levied under Section 9 of 'Sindh Finance Act, 1994' and its subsequent versions including the final version i.e. Sindh Development and Maintenance of Infrastructure Cess Act, 2017 at the rate specified of total value of goods as assessed by the 'Custom Authorities' while considering net weight and distance for carriage of goods through the province of 'Sindh'. The Company filed an appeal before the 'Honorable Sindh High Court' against levy which passed order dated 04 June 2021 against the Company and directed that bank guarantees should be encashed. Being aggrieved by the order, the Company along with others has filed petitions for leave to appeal before Honorable Supreme Court of Pakistan against the Sindh High Court's judgment in relation to Sindh infrastructure development cess. The Supreme court in its order dated granted interim relief to the Company against the order of Honorable Sindh High Court Subject to provision of bank guarantees equivalent of Cess amount. However, the probable amount has been fully recognised in the financial statements.

The Company has preferred an appeal against the said order before CIR(A).

16.1.2 The officials of LTU - Lahore, through notice dated 31 August 2021, initiated proceedings under section 4B of the Ordinance against the Company which was duly responded by the Company's tax advisor on Company's behalf. Such proceedings were concluded through order dated 17 September 2021, passed under section 4B of the Ordinance, whereby a tax demand of Rs 23.97 million imposing super tax and default surcharge was raised against the Company. The Company assailed the subject order in appeal before CIR(A), which was accepted and vacated against the departmental action by CIR(A) through appellate order dated 13 April 2022. The department has preferred further appeal against the said appellate order before ATIR.

16.1.3 The officials of LTU - Lahore raised income tax demands of Rs 8.8 million for tax year 2013, Rs. 49.78 million for tax year 2016, Rs. 55.78 million tax year 2018 and Rs. 93.49 million for tax year 2019 against the Company through separate orders dated 28 June 2019, 29 June 2018, 17 November 2020 and 29 December 2020 respectively under section 161/205 of the Ordinance on grounds that income tax has not been deducted against certain payments during tax years 2013, 2016, 2018 and 2019 respectively. The Company has agitated the orders in appeal before Commissioner Inland Revenue Appeals ('CIR-A').

For tax year 2013, the Company's appeal against order was disposed of by CIR-A for which the Company has filed appeal before ATIR which is pending adjudication.

For tax year 2016, CIR-A has vacated the departmental action to the extent of Rs. 39.12 million and for remaining amount of Rs. 10.78 million the Company has filed an appeal before the Appellate Tribunal Inland Revenue ('ATIR') which is pending adjudication.

For tax year 2018, the Company's appeal against order was disposed of by CIR(A), through appellate order dated 13 October 2021. Subsequently, the Company filed appeal before ATIR against the aforesaid appellate order, such appeal was disposed of through order dated 29 April 2022, whereby ATIR vacated both the earlier orders and remitted the matter back to the department for consideration afresh.

For tax year 2019, the Company's appeal against order was disposed of by CIR(A), through appellate order dated 28 April 2022. Through such order CIR(A) upheld the departmental action on all accounts. The Company has assailed the said appellate order in appeal before ATIR, which is presently pending adjudication.

- 16.1.4** The officials of LTU - Lahore raised income tax demands of Rs 32.03 million against the Company through amendment order, dated 28 June 2019 under section 122(5A) of the Ordinance for tax year 2013. The Company has preferred appeal against the orders before CIR-A which was disposed of by CIR(A) through appellate order dated December 31, 2021. Through such order, CIR(A) has deleted/ annulled the departmental action on all issues except the issues regarding the time limitation of such proceedings and apportionment of expenses under rule 231 of the Income Tax Rules, 2002 ('the Rules'). Feeling aggrieved with the aforesaid action, Company has preferred appeal before ATIR in accordance with the available remedial course. The department has also filed appeal against the said appellate order before ATIR, both appeals are presently pending adjudication.
- 16.1.5** The officials of LTU - Lahore after concluding income tax audit under Section 177 of the Ordinance, raised income tax demand of Rs. 7.98 million against the Company through amended order, dated 26 April 2018, under Section 122(5) of the Ordinance for tax year 2014. The Company has preferred appeal against the orders before CIR-A which was disposed of by CIR(A) through appellate order dated December 31, 2021. Through such order, CIR(A) has deleted/ annulled the departmental action on all issues except regarding apportionment of expenses under rule 231 of the Rules. Feeling aggrieved with the aforesaid action, Company has preferred appeal before ATIR in accordance with the available remedial course. The department has also filed appeal against the said appellate order before ATIR, both appeals are presently pending adjudication.
- 16.1.6** Consequent to amendment of deemed income tax assessment of tax years 2006 to 2012 vide separate orders, dated 30 April 2010, 30 September 2010, 14 May 2012, 23 October 2012, 30 March 2015, 23 June 2014 and 29 January 2016 respectively, involving income tax of Rs. 324.80 million, the Company has been extended significant relief by the CIR-A. The issues in respect of which CIR-A did not allow relief have been taken up in appeals before the ATIR and such appeals is pending adjudication.
- 16.1.7** The officials of LTU - Lahore, while giving effect to CIR-A's appellate orders under Section 124/129 of the Ordinance in the context of amendments made under Section 122(5A) of the Ordinance, have arbitrarily made disallowances/ increase in income (i.e. exchange loss, notional profit of associates etc.) for tax years 2010 and 2012 vide separate orders, dated 30 June 2018, involving sum of Rs. 657 million. The issue was taken up in appeals before CIR-A. CIR-A has deleted the departmental action on all issues except for disallowance for exchange loss amounting to Rs. 122.97 million which was remanded back and for which the Company has preferred appeal before ATIR which is pending adjudication.
- 16.1.8** Admissibility of 'payment to preference share-holders' has been disputed in income tax amendment orders, dated 30 September 2010, 14 May 2012, 23 October 2012, 30 March 2015, 23 June 2014 and 29 January 2016 respectively, for tax years 2007 to 2013 involving a sum of Rs. 209 million. The first appellate authority has maintained departmental stance, the Company's appeals are lying with ATIR while appeal for tax year 2013 was furnished with CIR(A) which was decided in the favor of the Company.

- 16.1.9** Proceedings were initiated by officials of LTU - Lahore through orders dated 29 December 2018 under Section 122(5A) of the Ordinance regarding apportionment of deduction claimed on account of WPPF to export income amounting to Rs. 16.12 million and Rs. 12.50 million for tax year 2015 and 2017 respectively. The Company filed an appeal before CIR-A which was decided against the Company by CIR-A through appellate order dated 24 August 2020. The Company has assailed the said appellate order in appeal before ATIR which is pending for adjudication.
- 16.1.10** Through order dated 28 June 2019 under Section 132/162/205 of the Ordinance, the LTU - Lahore officials raised income tax demand of Rs. 10.11 million for tax year 2009 on the grounds that tax under Section 148 of the Ordinance at import stage was short paid. The Company filed an appeal before CIR-A, through appellate order 23 October 2019 the tax demand was vacated by CIR-A. The department has assailed the appellate order of CIR-A in appeal before ATIR which has not yet been fixed for hearing.

Note

18.2.1 During the year, the Board of Directors of FEL resolved to convert outstanding advance of Rs. 3,342.07 million into 334.21 million preference shares at par value of Rs.10 per share. The Board of Directors and Shareholders of the Company gave approval for the conversion in BOD meeting and Extra Ordinary General meeting held on 17 February 2022 and 10 March 2022 respectively and consequently preference shares were issued on 21 March 2022. The outstanding markup was not converted into preference shares. The Company holds 31.4% preference shares in FEL, however the Company believes that it does not have significant influence as preference shares currently not carry any voting rights nor any current access to the returns associated with an underlying ownership interest. This investment in FEL (ordinary shares and preference shares) has been designated at fair value through OCI under IFRS 9. The fair value (at the date of conversion and at reporting date) has been determined by an independent valuer and has been designated at Level 3 as mentioned in note 40.

Following major terms and conditions for issuance of preference shares are agreed by both companies:

- Total outstanding advance (Rs. 3,342.07 million) converted into unlisted, perpetual, non cumulative, redeemable and convertible preference shares.

- A conversion option of preference shares into ordinary shares with ratio of 1:1 after a period of 5 years and a redemption option after 21.5 years stands with the issuer of preference shares i.e. FEL.
- Preference shareholders have no voting rights and does not carry entitlement of ordinary shares, right issue or bonus issue.
- Preference shareholders will be entitled up to 60% of profit after tax subject to discretion of the Board of Directors and approval of shareholders of FEL.
- Preference will be given to preference shareholders before declaring dividend to ordinary shareholder.
- If the FEL has no surplus/distributable profits available at the end of any financial, no dividend shall be declared. The dividend will also not accumulate.
- Preference shares shall be transferrable among the Preference shareholders.
- The face value of preference shares shall not be higher than the par value of existing ordinary shares i.e. Rupees 10 each.
- At the time of winding up, the holders of the preference shares are entitled to a pro rata share of FEL's available net assets.

- 19.1.1** These represents advances disbursed to meet the working capital requirements, operational/ capital needs of FEL. These advances carry mark-up at the rate of average borrowing cost of the Company. Effective mark-up rate charged by the Company during the year is 8.94% per annum (2021: 8.94% per annum).

Pursuant to restructuring of FEL's borrowings with financial institutions along with related subordination of borrowings from sponsors, the Company on 10 June 2020 entered into an restructuring agreement with FEL for rescheduling the repayment of principal and related markup of Rs. 2,498 million and Rs. 553 million as approved by the Board of Directors of both the companies. As per the revised agreement, principal and markup accrued are subordinated and were repayable from financial year 2027. Accordingly, markup accrued from FEL upto 30 June 2020 was classified as non-current. The resulting adjustment on modification as at 30 June 2020 was included in the cost of investment. Till 21 March 2022, the loan and related markup (interest free) have been measured at fair value by discounting the cash flows at the rate of average borrowing cost of the Company (8.94%).

Further as explained in note 18.2.1, the outstanding amount of advance has been converted into preference shares and the closing balance represents the markup accrued.

- 19.1.2** These represents fresh advances disbursed during the current and prior year (post restructuring) to meet the working capital requirements, operational/ capital needs of FEL. These loans carry mark-up at the rate of average borrowing cost of the Company. Effective mark-up rate charged by the Company during the year is 9.03% per annum (2021: 9.03% per annum). As per the agreement, principal and markup accrued are subordinated and are repayable after repayment of outstanding loan of FEL's lenders (markup assumed to be payable from financial year 2027).

Further as explained in note 18.2.1, the outstanding amount of advance has been converted into preference shares and the closing balance represents the markup accrued.

- 19.1.3** This represents impact of change in timing of estimated cash flows on aforesaid loan receivable from FEL. The revised gross carrying amount of the financial asset is recalculated by discounting the revised estimated future cash flows at the instruments original effective rate. The corresponding expense is recognized in statement of profit or loss.

There is no dilution effect on the basic earnings per share of the current year as the Company has no such commitments.

**40 Fair value measurement of financial instruments****A. Accounting classifications and fair values**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted price is readily and regularly available from an exchange dealer, broker, industry Company, pricing service, or regulatory agency, and that price represents actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the Company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2)
- Inputs for the asset or liability that are not based on observable market data (i.e. unobservable) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognized at the end of the reporting period during which the changes have occurred.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

40.1 Fair value measurement of financial instruments

B. Measurement of fair values

1. Valuation techniques and significant unobservable inputs

The following table shows valuation techniques used in measuring Level 3 fair values for financial instruments of financial position, as well as the significant unobservable inputs used. Related valuation process have been described below:

Financial instruments measured at fair value

Type	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
<u>Long term investments - Ordinary shares</u> - Fatima Energy Limited	Income approach: The valuation model considers the present value of the expected future payments, discounted using risk-adjusted discount rate.	- Expected cash flows: Rs. nil to Rs. 6,066 - Risk-adjusted discount rate: 20.95% - Specific risk premium: 4.00%	The estimated fair value would increase (decrease) if: - the expected cash flows were higher (lower); or - the risk-adjusted discount rate were lower (higher).
<u>Long term investments - Preference shares</u> - Fatima Energy Limited	Income approach: The valuation model considers the present value of the expected future payments, discounted using risk-adjusted discount rate.	- Expected cash flows: Rs. nil to Rs. 11,314 million - Risk-adjusted discount rate: 20.95% - Specific risk premium: 4.00%	The estimated fair value would increase (decrease) if: - the expected cash flows were higher (lower); or - the risk-adjusted discount rate were lower (higher).
- Fatima Transmission Company Limited (at the date of conversion and reporting date-note 18.3.1)	Income approach: The valuation model considers the present value of the expected future payments, discounted using risk-adjusted discount rate.	- Expected cash flows: Rs. nil to Rs. 447 million - Risk-adjusted discount rate: 19.88% - Specific risk premium: 4.00%	The estimated fair value would increase (decrease) if the adjusted market multiple based on investments of similar nature, location and condition.
Long term investments - Multan Real Estate (Private) Limited	Market comparison technique: The valuation is based on market multiples derived from comparable investments/properties, adjusted for the effect of non-marketability of the equity securities.	- Adjusted market multiple based on investments of similar nature, location and condition.	The estimated fair value would increase (decrease) if the adjusted market multiple were higher (lower).

As explained in note 18.2.1, the Company has converted advance to FEL into preference shares. Fair value of these preference shares is determined by using income approach (same as used for valuation of ordinary shares). Furthermore, significant unobservable inputs includes expected cash flows of (Rs. nil to Rs.9,738), risk adjusted discount rate and specific risk premium of 22.10% and 4.00% respectively.

**II. Level 3 recurring fair values**

Sensitivity analysis

The effect of changes in the unobservable inputs used in the fair value of long term investment in Mullan Real Estate (Private) Limited cannot be determined with certainty, accordingly a qualitative disclosure of sensitivity has not been presented. For the fair value of long term investment in Fatima Energy Limited, reasonably possible changes at the reporting date to one of the significant unobservable inputs, holding other inputs constant, would have the following effects.

	2022		2021	
	Change in assumption Percentage	Increase in assumption Rupees	Change in assumption Percentage	Long term investments Increase in assumption Rupees

40.2 Fair value measurement of property, plant and equipment

Freehold land, buildings on freehold land and plant and machinery have been carried at revalued amounts determined by professional valuers (Level 3) based on their assessment of market value as disclosed in note 7. The valuations are conducted by the valuation experts appointed by the Company. The valuation experts used a market based approach to arrive at the fair value of the Company's properties. This revaluation was carried out by Joseph Lobo (Private) Limited (Independent valuers). The most significant input into this valuation approach is price per acre for land, price per square foot for buildings and present operational condition and age of plant and machinery and other assets. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty, accordingly a qualitative disclosure of sensitivity has not been presented in these financial statements.

**41 Financial risk management**

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

The Company's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance.

41.1 Risk management framework

The Board of Directors has overall responsibility for establishment and over-sight of the Company's risk management framework. The executive management team is responsible for developing and monitoring the Company's risk management policies. The team regularly meets and any changes and compliance issues are reported to the Board of Directors through the audit committee.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's audit committee oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. Audit committee is assisted in its oversight role by internal audit department. Internal audit department undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

The Company's exposure to financial risk, the way these risks affect the financial position and performance and the manner in which such risks are managed is as follows:

41.2 Credit risk

Credit risk represents the accounting loss that would be recognized at the reporting date if counter-parties failed completely to perform as contracted. The Company does not have significant exposure to any individual counterparty. To reduce exposure to credit risk the Company has developed a formal approval process whereby credit limits are applied to its customers. The management also continuously monitors the credit exposure towards the customers and makes provision against those balances considered doubtful of recovery. To mitigate the risk, the Company has a system of assigning credit limits to its customers based on an extensive evaluation based on customer profile and payment history. Outstanding customer receivables are regularly monitored. Most of the customers are also secured, where possible, by way of letters of credit.

Total financial assets of Rs. 15,605.66 million (2021: Rs. 11,130.73 million) are subject to credit risk.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at reporting date is:

**41.2 (a) Other financial assets**

The credit quality of Company's investments can be assessed with reference to external credit rating agencies as follows:

<u>Financial assets at FVOCI</u>	<u>Rating</u>	<u>2022</u> Rupees	<u>2021</u> Rupees
Fatima Fertilizers Company Limited	AA	2,381,174,372	1,811,078,391

41.2 (b) Counterparties with external credit rating

Credit risk is considered minimal since the counterparties have reasonably high credit ratings as determined by various credit rating agencies. Due to long standing business relationships with these counterparties and considering their strong financial standing, management does not expect non-performance by these counterparties on their obligations to the Company. Following are the credit ratings of counterparties with external credit ratings:

41.2 (c) Counterparties without external credit rating

These mainly include customers which are counter parties to local and foreign trade debts against sale of yarn and fabric. The Company applies the IFRS 9 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade receivables. Trade receivables are written off when there is no reasonable expectation of recovery. The management uses an allowance matrix to base the calculation of ECL of trade receivables from individual customers, which comprise a very large number of small balances. Loss rates are calculated using a 'role rate' method based on the probability of receivable progressing through successive stages of delinquency to write-off. The Company has used two years quarterly data in the calculation of historical loss rates along with the matching quarterly ageing brackets for the computation of roll rates. These rates are multiplied by scalar factors to reflect the effect of forward looking macro economic factors. Out of total trade debts of Rs. 7,310.77 million (2021: Rs. 4,762.11 million), Rs. 1,671.55 million (2021: Rs. 1,033.60 million) are secured against letter of credits. The analysis of ages of trade debts and loss allowance using the aforementioned approach as at 30 June 2022 was determined as follows:

	2022		2021	
	Gross carrying amount	Loss Allowance	Gross carrying amount	Loss Allowance
	----- Rupees -----		----- Rupees -----	
The aging of trade debts at the reporting date is:

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and controls relating to customer credit risk management. Credit limits are established for all customers based on internal rating criteria. Credit quality of the customer is assessed based on an extensive credit rating. Outstanding customer receivables are regularly monitored and shipments to the export customers are generally covered by letters of credit or other form of credit insurance.

Credit risk on loans and advances and related markup accrued from related parties are measured under General Approach based on assessment of factors related to increase in significant risk and impairment and reporting date. These loans have given to related parties to meet their operational and financial needs after approval of shareholders and the board of directors after converting the business case, financial vulnerability and credit worthiness. As explained in note 18 to the financial statements the outstanding advance to FEL and FTCL have been converted into preference shares. Markup has not been converted into preference shares and based on assessment of factors related to credit risk under IFRS 09 have been provided for.

Other receivables and deposit are mostly from utility companies and insurance. Impairment on the assets has been measured on a 12 months expected loss basis and reflect the shortest maturities. Based on past experience the management believes that no impairment allowance is necessary in respect of these financial assets.

41.2 (d) Concentration of credit risk

Concentration of credit risk exists when the changes in economic or industry factors similarly affect Companies of counterparties whose aggregate credit exposure is significant in relation to the Company's total credit exposure. The Company's portfolio of financial instruments is broadly diversified and all other transactions are entered into with credit-worthy counterparties there-by mitigating any significant concentrations of credit risk.

**41.3 Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure as far as possible to always have sufficient liquidity to meet its liabilities when due. The Company is not materially exposed to liquidity risk as substantially all obligations/ commitments of the Company are restricted to the extent of available liquidity. In addition, the Company has obtained various short term facilities from various commercial banks to meet any deficit, if required to meet the short term liquidity commitments.

It is not expected that the cash flows on the maturity analysis could occur significantly earlier, or at significant different amount.

**41.4 Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing return. Market risk comprises of currency risk, interest rate risk and other price risk.

41.4.1 Currency risk

Pakistani Rupee is the functional currency of the Company and exposure arises from transactions and balances in currencies other than Pakistani Rupee as foreign exchange rate fluctuations may create unwanted and unpredictable earnings and cash flow volatility. The Company's potential currency exposure comprises of:

- Transactional exposure in respect of non functional currency monetary items.
- Transactional exposure in respect of non functional currency expenditure and revenues.

The potential currency exposures are discussed below:

Transactional exposure in respect of non functional currency monetary items

Monetary items, including financial assets and liabilities, denominated in currencies other than the functional currency of the Company are periodically restated to rupee equivalent, and the associated gain or loss is taken to the statement of profit or loss. The foreign currency risk related to monetary items is managed as part of the risk management strategy.

Transactional exposure in respect of non functional currency expenditure and revenues

Monetary items, including financial assets and liabilities, denominated in currencies other than the functional currency of the Company are periodically restated to rupee equivalent, and the associated gain or loss is taken to the statement of profit or loss. The foreign currency risk related to monetary items is managed as part of the risk management strategy.

Exposure to currency risk

The Company's exposure to foreign currency risk at the reporting date is as follows:

	2022	2021
	Rupees	Rupees
<u>Statement of financial position items</u>		
Finance against imported merchandise	775,625,155	89,379,886
Foreign currency export finance	2,466,000,000	-
Foreign debtors	(1,671,549,444)	(1,033,603,141)
Gross exposure	1,570,075,711	(944,223,255)
<u>Off statement of financial position items</u>		
Outstanding letters of credit	6,010,597,409	7,766,596,573
Commitments in respect of foreign exchange forward contracts	349,350,000	1,178,466,000
Net exposure	<u>7,930,023,120</u>	<u>8,000,839,318</u>

The following significant exchange rate has been applied:

Average and spot rate

	Average rate		Spot rate	
	2022	2021	2022	2021
	----- Rupees -----		----- Rupees -----	
USD to Rupee	179.64	156.37	206.52	157.54

Sensitivity analysis:

At reporting date, if the PKR had strengthened by 10% against the foreign currencies with all other variables held constant, profit for the year would have been higher by the amount shown below, mainly as a result of net foreign exchange gain on translation of export finances and foreign debtors.

	2022 Rupees	2021 Rupees
<u>Effect on statement of profit or loss</u>		
USD to Rupee	793,002,312	800,083,932

The weakening of the PKR against foreign currencies would have had an equal but opposite impact on the profits.

The sensitivity analysis prepared is not necessarily indicative of the effects on profit for the year and assets/liabilities of the Company.

Currency risk management

Since the maximum amount exposed to currency risk is only 9.06% (2021: 11.92%) of the Company's total assets, any adverse/ favorable movement in functional currency with respect to US dollar will not have any material impact on the operational results.

41.4.2 Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. At the reporting date the interest rate profile of the Company's significant interest bearing financial instruments is as follows:

41.4.2 (a) <i>Financial Instruments</i>	2022	2021	2022	2021
	Effective rate (in Percentage)		Carrying amount (Rupees)	
<u>Financial liabilities</u>				
<i>Fixed rate instruments:</i>				
Long term loan	1.50 - 4.75	1.50 - 3.75	8,637,206,390	7,014,895,751
<i>Variable rate instruments:</i>				
Long term loan	8.05 - 17.98	7.24 - 14.49	9,995,431,437	9,343,173,027
Short term borrowings	1.00 - 15.96	1.00 - 13.75	15,370,774,156	6,007,110,905
<u>Financial assets</u>				
<i>Variable rate instruments:</i>				
Advance to associated company	7.5 - 14.31	8.82 - 9.03	-	3,361,379,821
Saving accounts	0.15 - 12.25	0.15 - 5.5	55,806	50,636

**41.4.2 (b) Fair value sensitivity analysis for fixed rate instruments**

The Company does not account for any fixed rate financial assets and liabilities at fair value through statement of profit or loss. Therefore a change in interest rates at the reporting date would not affect statement of profit or loss.

41.4.2 (c) Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have increased/ (decreased) profit or (loss) for the year by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

	Profit or loss	
	100 bps Increase	100 bps Decrease
	----- Rupees -----	
As at 30 June 2022	253,661,498	(253,661,498)
As at 30 June 2021	119,880,539	(119,880,539)

The sensitivity analysis prepared is not necessarily indicative of the effects on profit for the year and assets/liabilities of the Company.

41.4.2 (d) Interest rate risk management

The Company manages these mismatches through risk management strategies where significant changes in gap position can be adjusted. The Company's significant borrowings are based on variable rate pricing that is mostly dependent on Karachi Inter Bank Offer Rate ("KIBOR") as indicated in respective notes.

41.5 Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk). The Company is exposed to equity price risk because of investments held by the Company and classified on the statement of financial position at fair value through profit or loss and fair value through OCI. To manage its price risk arising from investments in ordinary and preference equity securities, the Company diversifies its portfolio within the eligible stocks in accordance with the risk investment guidelines approved by the investment committee.

Sensitivity analysis

The table below summarizes the Company's equity price risk as of 30 June 2022 and 2021 and shows the effects of a hypothetical 10% increase and a 10% decrease in market prices as at the year end. The selected hypothetical change does not reflect what could be considered to be the best or worst case scenarios. Indeed, results could be worse because of the nature of equity markets and the aforementioned concentrations existing in the Company's equity investment portfolio.

41.6 Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior. Operational risks arise from all of the Company's operations.

The Company's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Company's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within the Company. This responsibility is supported by the development of overall Company standards for the management of operational risk in the following areas:

- requirements for appropriate segregation of duties, including the independent authorization of transactions
- requirements for the reconciliation and monitoring of transactions
- compliance with regulatory and other legal requirements
- documentation of controls and procedures
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified
- development of contingency plans
- training and professional development
- ethical and business standards
- risk mitigation, including insurance where this is effective

42 Capital management

The Board of Directors' policy is to maintain an efficient capital base so as to maintain investor, creditor and market confidence and to sustain the future development of its business. The Board of Directors monitors the return on capital employed, which the Company defines as operating income divided by total capital employed. The Board of Directors also monitors the level of dividends to ordinary shareholders.

The Company's objectives when managing capital are:

- i) to safeguard the entity's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- ii) to provide an adequate return to shareholders.

The Company manages the capital structure in the context of economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, issue new shares, or sell assets to reduce debt.

The Company monitors capital on the basis of the gearing ratio - calculated as a ratio of total debt to capital employed.

42.1 Gearing ratio as at 30 June 2022 and as at 30 June 2021 are as follows:

	2022	2021
	Rupees	Rupees
Total debt	34,628,545,804	22,737,198,969
Total equity including revaluation surplus	40,529,294,748	34,697,283,259
Total capital employed	<u>75,157,840,552</u>	<u>57,434,482,228</u>
Gearing ratio	46%	40%

Total debt comprises of long term financing from conventional banks, long term musharika including current portion of long term borrowings, short term borrowings, accrued mark up and lease liability.

There were no changes in the Company's approach to capital management during the year. The Company is not subject to externally imposed capital requirements, commonly imposed by the providers of debt finance.

47.1 Reportable segments

The management has determined the operating segments of the Company on the basis of products produced.

The Company's reportable segments are as follows:

- Spinning segment - production of different qualities of yarn using natural and artificial fibers
- Weaving segment - production of different qualities of fabric using yarn

Information regarding the Company's reportable segments is presented below. Performance is measured based on segment profit before tax, as management believes that such information is the most relevant in evaluating the results of certain segments relative to other companies that operate within these industries.

48 Acquisition of Imperial Textile Mills Limited under asset acquisition approach

As explained in note 1.2 of these financial statements, during the year the Company acquired 100% shareholding of Imperial Textile Mills Limited (ITML), a dormant entity, transfer of shares and transfer of control to the Company was completed on 01 May 2022 after completion of necessary regulatory approvals. Further, the scheme of arrangement for merger of ITML with the Company with effect from 01 June 2022 has been approved by Securities and Exchange Commission of Pakistan on 28 October 2022. As explained in note 4.12, the acquisition of ITML does not meet the definition of a business and resultantly been scoped out of IFRS 03 'Business Combination'.

This transaction has been accounted for as asset acquisitions whereby the cost of acquisition has been allocated between the individual identifiable assets and liabilities based on their relative fair values at the date of acquisition. No goodwill or a gain on a bargain purchase arise in this case.

Details of assets acquired and liabilities assumed from Imperial Textile Mills Limited are as follows:
